APPLICATION FOR A PERMIT TO CONSTRUCT A WATER WELL IN THE LITTLE BLUE NATURAL RESOURCES DISTRICT

(32308)

1. NAME: Albert H. Stockam Living Trust
 ADDRESS: P.O. Box 280,
Deshler, Nebraska 68340
 PHONE: (402) 365 4110

DNR & NRD USE ONLY

Permit No. LBMA-0021Reg. No. 6-90931

2. PURPOSE OF WELL (indicate one): ☒ Irrigation ☐ Domestic ☐ Livestock ☐ Public Water Supply ☐ Dewatering (over 90 days) ☐ Geothermal ☐ Ground Heat Exchanger ☐ Industrial ☐ Recovery ☐ Ground Water Source Heat Pump ☐ Monitoring ☐ Aquaculture ☐ Other

3. IDENTIFY THE LOCATION OF THE PROPOSED WELL:

Nucleo 11s County, Township 2 North, Range 5
 East/West Section 1

The box at the right represents one square mile, (section). Indicate with an "X", the proposed location of the well. Outline the proposed water use area, if water is to be used outside the above written legal description, give legal description of water use area, Township 2 North Range 5 East/West Section 1

The well will be located 1300 feet from the North/South Section Line, and will be 1300 feet from the East/West Section line.

4. IRRIGATION WELLS:

How many acres will be irrigated? 130

Will flow meter be used on proposed well ☐ Yes ☐ No?

Type of irrigation system: ☒ Center Pivot ☐ Gravity ☐ Other (specify) _____

Will system be ☐ Electric ☐ Fuel powered?

Will the well be used in a system with other wells ☐ Yes ☒ No? If yes, how many? _____

Will fertilizer, chemicals or animal waste be applied through the system ☐ Yes ☒ No?

6. REPLACEMENT AND ABANDONMENT WELL INFORMATION:

A. Is this a replacement well? ☐ Yes ☒ No.

B. Registration number of well to be replaced: _____

C. Well to be replaced was last operated _____, 19____

D. Replacement well is _____ feet from original well.

E. Completion of original well decommissioning on _____, 19____

F. Will new well water the same tract of land as the decommissioned well ☐ Yes ☐ No?

8. SPECIFICATIONS OF INTENDED WELL AND PUMP:

Approximate date when construction will begin: Feb. 1996

Pump column diameter: 8 inches. Estimated total well depth 230 feet.

Estimated pumping capacity: 800 gallons per minute. Well casing diameter: 15 inches.

Please attach test hole log, if available. Name of Well Driller: WILLIAMS DRILLING INC.

7. I certify that I am familiar with the information contained in this application, and its restrictions, rules and regulations and that to the best of my knowledge and belief such information is true, complete and accurate.

This form must be completed in full and be accompanied by a non-refundable \$17.50 filing fee (payable to the Little Blue Natural Resources District), address on back side.

Date 12-4-96 Signature of Applicant [Signature]

Date Approved 12/6/96 NRD Representative [Signature]

SEE OTHER SIDE FOR IMPORTANT PERMIT RESTRICTIONS, RULES AND REGULATIONS!!!

This form must be completed in full and be accompanied by a non-refundable \$17.50 filing fee (payable to the Little Blue Natural Resources District). Forward this application and filing fee to:

Little Blue Natural Resources District
PO Box 100
Davenport, NE 68335
Phone: (402) 364-2145

Please take the time and fill out the information correctly. An incomplete or defective application will be returned by the District, with 60 days being allowed for resubmission. All permits shall be issued by the District with conditions attached, or denied not later than 30 days after receipt of a complete and properly prepared application.

PERMIT RESTRICTIONS

1. Well permits are required prior to construction or a late fee of \$250.00 will be assessed.
2. Permits are not required for test holes, temporary dewatering wells (less than 90 days), or wells designed to pump 50 gallons per minute or less.
3. If the well is not constructed within a one year period from the date of approval, a new permit is needed.
4. The well authorized by this permit may not be constructed closer than 600 feet from an existing well having a capacity of 100 gallons per minute or more, unless both the new and existing wells are owned by the same individual.
5. According to State law §46-637, water wells may not be drilled within 50 feet of a stream bank without first getting a surface water right for that stream from the Department of Water Resources.
6. Replacement wells do need a permit from the Little Blue NRD. A replacement well is one which replaces an abandoned water well that has been operated within the last three years, and is constructed to water the same tract of land as the abandoned water well. If the well is being replaced, it must be properly abandoned according to state guidelines. A copy of these guidelines are available from the Little Blue NRD.
7. All new or replacement water wells constructed in the district are required to be sampled for nitrates upon completion.
 - A. Municipalities which develop a new public water well shall submit a copy of that well's initial water quality test results to the district within 30 days of receipt of such results from the Department of Health.
 - B. The sample for all non-municipal wells shall be collected by the owner, operator or farm manager no sooner than 30 days, nor later than 60 days, after activation of the well.
8. The Little Blue NRD encourages that all new non-domestic water wells designed to pump 50 gallons per minute or more be constructed with adequate free space in the pump discharge to accommodate a flow measurement device if required in the future.
9. Any person who commences or causes construction of such a well for which the required permit has not been obtained, or who knowingly furnishes false information regarding such permit, shall be guilty of Class IV misdemeanor. (§46-602.01)
